EDUCATION

PhD, University of Toledo, 2015
Experimental Social Psychology

MA, Oregon State University, 2011
Interdisciplinary Studies, Psychology

BS, Oregon State University, 2009
Social Psychology with Honors

SKILLS

Relevant skills of which I **know** the concepts, **execute** routinely, and can **manage and direct** others.

Skill	Know	Execute	Manage
Research/Evaluation Design	●	●	●
Quantitative Methods (e.g., surveys, scales, secondary data)	●	●	●
Qualitative Methods (e.g., focus groups, interviews)	●	●	◗
Statistical Analysis (e.g., t-test, ANOVA, regression)	●	●	●
Advanced Analysis (e.g., time series, latent models)	●	●	◗
Qualitative Analysis (e.g., content analysis, grounded theory)	●	◗	○
Data Visualization (e.g., graphs, figures, infographics)	●	●	○

JILL A. BROWN, PhD

I am a motivated, meticulous, and dedicated research and evaluation scientist with a passion for data analysis and communication. My primary goal is to develop and execute methodologies and communication techniques that are rigorous and intuitive, transcending domains and integrating disciplines for a sustainable global future.

13 Years Research Design & Analysis

24 Reports & Publications

10 Talks & Formal Presentations

U.S. Army Public Health Center
Public Health Scientist   *Oct 2017 to Oct 2020*

- Led nine Army public health evaluation projects including environmental scans, needs assessments, evaluability assessments, community health assessments, process evaluations, and outcome evaluations.
- Consulted on design, methodology, statistical analysis, and/or reporting for over 30 public health evaluation proposals or projects.
- Coordinated a strategic effort to improve accessibility of information products, incorporating visualizations, graphics, and clear, bottom-line findings.
- Collaborated with peers and leaders to establish a scientific review process including developing a workflow, training reviewers, writing a policy, and serving as committee chair.
- Participated as a voting member on the Army Public Health Center Public Health Review Board (ethics board) reviewing project proposals.
- Managed and mentored a team of 11 contractors providing evaluation support for internal and external stakeholders. Earned a four-month temporary promotion to Acting Division Chief with oversight of 30 evaluation and consultation projects and 22 scientists, evaluators, and contractors.

Fellow, Quantitative Data Analyst   *Jun 2015 to Sep 2017*

- Held an educational fellowship position to hone program evaluation skills within the Army. Transitioned to Public Health Scientist role.
- Served as a technical subject matter expert, consultant, and analyst for seven Army public health program evaluations.
- Executed program evaluation projects from stakeholder engagement to data collection and analysis through reporting and final presentation.

University of Toledo
Graduate Research and Teaching Assistant   *Aug 2011 to May 2015*

- Designed and conducted research using experimental and survey research methodology. Executed research including social psychology, health psychology, placebo effects, decision-making, and culture.
- Managed project implementation and data entry of research assistants.
- Prepared and taught courses in introductory psychology, research methods, and statistics to undergraduate students.
